Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A swimwear garment comprising:

a chassis including an outer cover, a body side liner, and an absorbent assembly between the outer cover and the body side liner, the chassis defining a waist opening and first and second leg openings; and

an antimicrobial agent that is stabilized by a pool water ingredient, and is applied to the garment.

- 2. (Original) The swimwear garment of Claim 1, wherein the antimicrobial agent comprises hydantoin.
- 3. (Original) The swimwear garment of Claim 1, wherein the antimicrobial agent comprises a hydantoin derivative.
- 4. (Original) The swimwear garment of Claim 1, wherein the antimicrobial agent comprises an N-Halamine.
- 5. (Original) The swimwear garment of Claim 1, wherein the pool water ingredient comprises chlorine.
- 6. (Original) The swimwear garment of Claim 1, wherein the pool water ingredient comprises bromine.
- 7. (Original) The swimwear garment of Claim 1, wherein the chassis comprises a porous, nonwoven web, and the antimicrobial agent is applied to the nonwoven web.

KCC-2082 2 MR/S

8. (Original) The swimwear garment of Claim 1, wherein the chassis comprises a non-porous material, and the antimicrobial agent is applied to a surface of the non-porous material.

- 9. (Original) The swimwear garment of Claim 1, wherein the antimicrobial agent is grafted onto pulp and the grafted pulp is incorporated into an absorbent assembly within the chassis.
- 10. (Original) The swimwear garment of Claim 1, wherein the antimicrobial agent is applied to an absorbent assembly within the chassis via a modified polystyrene particle.
 - 11. (Original) A swimwear garment comprising:

a chassis including an outer cover, a body side liner, and an absorbent assembly between the outer cover and the body side liner, the chassis defining a waist opening and first and second leg openings; and

an antimicrobial agent, including a hydantoin derivative, applied to the garment.

- 12. (Original) The swimwear garment of Claim 11, wherein the antimicrobial agent is applied to the outer cover.
- 13. (Original) The swimwear garment of Claim 11, wherein the antimicrobial agent is applied to the body side liner.
- 14. (Original) The swimwear garment of Claim 11, further comprising a pair of containment flaps adjacent the leg openings of the chassis.
- 15. (Original) The swimwear garment of Claim 14 wherein the antimicrobial agent is applied to the containment flaps.

KCC-2082 3 MR/S

16. (Original) The swimwear garment of Claim 11, wherein the antimicrobial agent is applied to the garment via a modified polystyrene particle.

- 17. (Original) The swimwear garment of Claim 11, wherein the antimicrobial agent comprises an N-Halamine.
- 18. (Original) The swimwear garment of Claim 11, wherein the antimicrobial agent comprises dimethyl dimethyl hydantoin.
- 19. (Original) The swimwear garment of Claim 11, wherein the antimicrobial agent comprises polystyrene hydantoin.
- 20. (Original) The swimwear garment of Claim 11, wherein the antimicrobial agent comprises chlorinated polystyrene hydantoin.
- 21. (Original) The swimwear garment of Claim 11, wherein the swimwear garment is intended for use in chlorinated water.
- 22. (Original) The swimwear garment of Claim 11, wherein the swimwear garment is intended for use in brominated water.
 - 23. (Original) A swimwear garment comprising:

a chassis including an outer cover, a body side liner, and an absorbent assembly between the outer cover and the body side liner, the chassis defining a waist opening and first and second leg openings; and

an antimicrobial agent, including a hydantoin derivative, applied to the absorbent assembly.

KCC-2082 4 MR/S

24. (Original) The swimwear garment of Claim 23, wherein the antimicrobial agent is grafted onto pulp and the grafted pulp is incorporated into the absorbent assembly.

- 25. (Original) The swimwear garment of Claim 23, wherein the antimicrobial agent is applied to the absorbent assembly via a modified polystyrene particle.
- 26. (Original) The swimwear garment of Claim 23, wherein the antimicrobial agent comprises an N-Halamine.
- 27. (Original) The swimwear garment of Claim 23, wherein the antimicrobial agent comprises dimethyl dimethyl hydantoin.
- 28. (Original) The swimwear garment of Claim 23, wherein the antimicrobial agent comprises polystyrene hydantoin.
- 29. (Original) The swimwear garment of Claim 23, wherein the antimicrobial agent comprises chlorinated polystyrene hydantoin.
- 30. (Original) The swimwear garment of Claim 23, wherein the swimwear garment is intended for use in chlorinated water.
- 31. (Original) The swimwear garment of Claim 23, wherein the swimwear garment is intended for use in brominated water.

KCC-2082 5 MR/S
